Football Prohibited Items/Policies

- ♦ **Visiting Cheer** squads/spirit groups **cannot** use the confetti/glitter poppers/cannons. This creates a large and difficult clean-up mess. They will not be allowed at any state championship game. It is permissible for the home" team during the first two rounds of the playoffs to allow their cheerleaders to use them.
- ♦ Artificial Noise Makers: Air horns/high pitch whistles are not allowed at an outdoor football game. Schools should be aware that incidents have occurred between their own fans when some older fans or families with younger children are offended or bothered by their bleacher neighbor using a cow bell or other allowable noise makers.
- ♦ Pep bands/ or amplified music cannot be played once the ready-for-play whistle has been blown by the referee. Students/fans noise is not subject to that policy.

Player Disqualification

Please remind your players not to react to any unsportsmanlike act from an opposing player. An official may miss the first unsportsmanlike act but they seem to always catch the retaliation. The first act does not warrant or justify the second act. The officials will penalize what they see, when they see it. A video appeal of a disqualification must show the entire play and it is evaluated for player identification and application of appropriate rules.
